

Brief overview of the UPM Department of Industrial Management

Miguel Gutiérrez – Academic Secretary of the Department

Composition

4 Full Professors + 1 Emeritus

17 Associate Professors – Civil servant

15 Associate Professors – Non civil servant

17 Assistant Professors (PhD)

8 Assistant Lecturers (PhD Students)

32 Part-time Professors

Total: 94 professors – 75 full time equivalent

Teaching (per year): ~1.700 ECTS, ~13.000 students

Research (per year): ~65 scientific publications

QUANTITATIVE METHODS

Statistics, Big data, Simulation, Operations research, Metaheuristics

OPERATIONS

Production and operations management, Supply chain management, Project management, Quality management

ADMINISTRATION

Business administration, Finance, Accounting, Marketing, Human Resources, ICT management, Social Responsibility, Sustainability

ECONOMY AND INNOVATION

Basic micro- and macro- economics, Innovation, Industrial and technology policy, Entrepreneurship

Bachelor in Industrial Technology Engineering

Specialization on Industrial Management

Bachelor in Industrial Management

Master in Industrial Technology Engineering

Specialization on Industrial Management

Master in Industrial Management

Aeronautical and Space Engineering

Forestry and Natural Environment

ETS of Architecture

ETSI Aeronautical Engineering

ETSI of Agriculture

ETSI of Civil Engineering

ETSI of Industrial Engineering

ETSI of Mining Engineering

ETSI of Forestry Engineering

ETSI of Naval Engineering

ETSI of Telecommunications Engineering

ETSI in Topography, Geodesy and Cartography

Faculty of Science for Physical Activity and Sport (FES)

Faculty of Computer Sciences

EU of Technical Architecture

EU of Computer Sciences

ELET of Aeronautical Engineering

ELET of Agriculture

ELET of Forestry Engineering

ELET of Industrial Engineering

Bachelor and Master

Basics of:

- Business administration
- Economics
- Operations management
- Project management

Doctoral programmes

DIO - Engineering Management Doctoral Programme

DEGIN.- Economics and Innovation Management
Interuniversity PhD program (in cooperation with Univ.
Autónoma de Madrid and Univ. Complutense de Madrid)

EDIM - European Doctorate in Industrial Management (in
cooperation with KTH [Coordinator] and Polimi) - Erasmus

Around 20 successful finished PhDs per year

- Access to CEsViMa HPC infrastructure.
- Small distributed cluster running on Linux with around 100 cores and more than 30 Tb of storage.
- Spark under kubernetes as orchestrator.
- Ingestion from different sources through different bridges and indexers like Elasticsearch.

Funded research programs

- EU projects – Currently 5 ongoing
- National projects – Currently 22 ongoing

Total research incomes: 2,7 M€

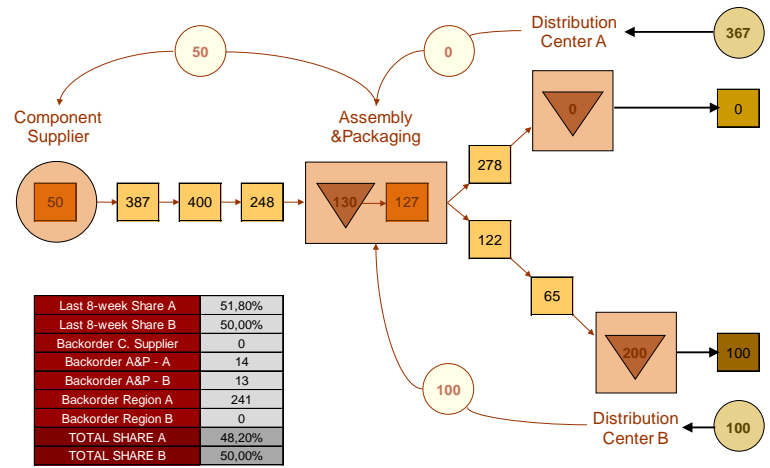

Research networks

- COST Action
- 3 National excellence networks

SUPPLY CHAIN 1 - SITUATION AT THE END OF WEEK NUMBER: 11

SUPPLY CHAIN 1 - SITUATION AT THE END OF WEEK NUMBER: 11

Computational statistics and stochastic modelling

Engineering management and logistics

Project management and quality

Sustainable organizations

Innovation, industrial property and technology policy

Computational statistics and stochastic modelling

- Time series analysis and forecasting
- Stochastic processes: montecarlo simulation and sensitivity analysis
- Data mining
- Structural modal analysis

Engineering management and logistics

Project management and quality

Sustainable organizations

Innovation, industrial property and technology policy

Computational statistics and stochastic modelling

Engineering management and logistics

- Applied operations research
- Production and operations management, scheduling
- Supply chain modeling and optimization
- Production systems modeling and simulation

Project management and quality

Sustainable organizations

Innovation, industrial property and technology policy

Computational statistics and stochastic modelling

Engineering management and logistics

Project management and quality

- Project management competences
- Big Data applications in business
- Internet of Things and Industry 4.0
- Lean management and organizational learning

Sustainable organizations

Innovation, industrial property and technology policy

Computational statistics and stochastic modelling

Engineering management and logistics

Project management and quality

Sustainable organizations

- Strategic social responsibility and industrial ecology
- Analysis, design and management of network organizations
- Corporate and human development
- Sustainable development goals (SDG)

Innovation, industrial property and technology policy

Computational statistics and stochastic modelling

Engineering management and logistics

Project management and quality

Sustainable organizations

Innovation, industrial property and technology policy

- Innovation management and social innovation
- Industrial property
- Design of technology policies
- Digital transformation

Company funded research projects

AIRBUS

accenture
